## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, 16-34 and 42-44, drawn to a U-shaped conveyance path, classified in class 194, subclass 350.
- II. Claim 10-15, drawn to a receiver pocket, classified in class 271, subclass 207.
- III. Claims 35, 36, 38 and 40, drawn to a friction member feed mechanism, classified in class 194, subclass 342.
- IV. Claims 37, 39 and 41, drawn to a line sensor identifier, classified in class 194, subclass 207.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, III and IV are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as conveyance path for a web feed for a continuous sheet of newsprint. Invention II has separate utility such as a receiver/bearer for playing cards. Invention III has separate utility such as a intermittent feed mechanism for light gage sheet metal. Invention IV has separate utility such as a photocopier sensor. See MPEP § 806.05(d).

Art Unit: 3653

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Ms. Kate Polly on 9 June 2003 to request an oral election to the above restriction requirement, but did not result in an election being made. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
